

Battery voltage	DS1		PS1
Max charge current	24V		24V
Charger enabled	16A		16A
Battery present	ON		ON
Expert mode	User defined		User defined
Absorption voltage	On		On
Float voltage	24.20V		24.20
Bulk	24.20V		24.20
-Re-bulk voltage offset	0.20V		0.20V
Absorption			
- Absorption duration	Fixed		Fixed
- Absorption time	2h 0m		2h 0m
- Tail current	Disabled		Disabled
Equalization			
- Equalization current percentage	0%	0%	
- Automatic equalization	Disabled		Disabled
- Tail current	Disabled		Disabled
Equalization stop	Fixed time		Fixed time
mode			
Equalization duration	2h 0m		2h 0m
Manual equalization	START NOW		START NOW
Voltage compensation			
- Temperature compensation	Disabled		Disabled
Battery limits			
- Low temperature cut-off	5C		5C
